6. The Performance Partnership Program (PPP)

The Training Center has received phone calls from participants in the program who question the requirement of either Civil Service or Academic seminars when they are not directly involved with that group of employees in their jobs. This core/elective process offers some knowledge in both areas while providing the option to acquire more if they so choose. Please note that one can enroll in any of the seminars as many times as they would like as the content can (and does) change. We recommend participants refresh HR Series workshops regularly in order to keep their supervisory and managerial knowledge current.

Expiration:
Courses must be completed within 3 HR Series years of the first seminar taken to contribute to completion status, Example: If you attend your first seminar during the 2014 – 2015 HR Series year, you must attend all eight core curriculum seminars and four of the electives by the end of Spring Semester 2017 in order for all attended seminars to contribute to completion status.

Participation Expectations:
Attending for the entire span of the training seminar is beneficial and recommended to maximize your knowledge and justify full credit for the workshop. A member of the Training Center team will be present at all workshops to staff these events and answer presenter and participant questions.
